November 29 – December 1, 2017

Nara Kasugano International Forum 麓 IRAKA

## Sponsorship Prospectus

**Nara, Japan**  
**Nov 29 - Dec 1**

Host : Advanced Telecommunications Research Institute International (ATR)  
Cabinet Office, Government of Japan, Impulsing PARadigm Change through  
disruptive Technologies Program (ImPACT) “Actualize Energetic Life by  
Creating Brain Information Industries”  
Keihanna Research-Complex project  
etc.

## Invitation

Real-Time Functional Imaging and Neurofeedback 2017 (rtFIN2017) will be held in Nara, Japan over a three-day period from November 29 to December 1, 2017. In 2012, our organization founded the first conference on rtfMRI neurofeedback in Zurich, Switzerland. The conference initiated important conversations which led to an influential journal paper and the creation of an rtfMRI community. In 2015, the second conference was held in Gainesville, Florida, and was expanded to include EEG, fNIRS and MEG. The event was attended by over 190 participants from all over the world, including the US, Europe, Russia and Asia.

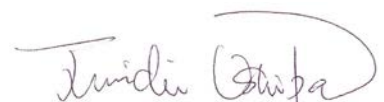

This rtFIN2017 provides the most focused opportunity to influence the field of neurofeedback, from initiating neurofeedback standardizations to organizing international efforts towards clinical translation. In addition, rtFIN2017 will also provide opportunities to efficiently promote sponsorship companies through six types of sponsorship and exhibition programs with a specific end in mind: to increase sales and to broaden domestic and overseas networks.

Therefore, we cordially ask for your participation and support for the sponsorship and exhibition program. We are confident that this will be a great opportunity not only for the rtFIN2017, but also for the development of your company.

Yours Sincerely,

General Chair:  
Mitsuo Kawato

Executive Board Chair:  
Junichi Ushiba

## rtFIN2017 Overview

**Date:** Wednesday, November 29 – Friday, December 1 2017

**Venue:** Nara Kasugano International Forum 葦 IRAKA  
101 Kasugano-Cho, Nara City, Japan 630-8212

**Expected participants:** 300

**Language:** English

**Web:** <http://rtfin2017.atr.jp>

**E-mail:** [bicr-con@atr.jp](mailto:bicr-con@atr.jp)

### General Chair

Mitsuo Kawato (ATR Brain Information Communication Research Laboratory Group)

### Executive Board

**Chair:** Junichi Ushiba (Keio University, Japan)

**Vice Chair:** Niels Birbaumer (University of Tübingen, Germany)

Nicholas Turk-Browne

(Princeton Institute for Computational Science and Engineering, USA)

Michelle Hampson (Yale School of Medicine, USA)

Ranganatha Sitaram (University of Florida, USA)
